Ronald's Workshop

Thank you for thinking of the guest families at Cincinnati's Ronald McDonald House during this holiday season. Every year, we set up "Ronald's Workshop" just before Christmas where parents can "shop" to secretly pick out gifts for their children (patients and siblings living with us). Our volunteers wrap and hide the gifts, and then Santa brings them to the families on Christmas Eve. It's a very exciting project, and our families are most grateful. As you can imagine, when faced with mounting medical bills and worrying about the health of their child, gifts for Christmas often are far lower on the list of needs than most families prefer. We are able to provide gifts for our guest families only through generous donations. We would appreciate donations of new, unwrapped toys and gifts for children and parents of any age to be delivered to us by **Friday, December 17th**.

We are in need of all kinds of toys, DVDs, video games (PSP, Playstation or Wii), etc. for children of all ages (boys and girls). **Our most needed items are for infants, toddlers and teens.** Gift cards are very much appreciated, especially by teens or parents that are limited with space and may want to use a gift card to buy a gift after they return home.

For toy ideas, please visit our Wish List Registry at ToysRUs.com. You can use the registry as a guideline, but purchases need not be only from Toys R Us. Your toy ideas are welcome, although we do require all toys be from reputable toy manufactures with a website that includes recalls and product safety information. *Generic, no-name toys that are not manufactured in the United States are discouraged due to the new Consumer Product Safety laws.*
